

# SentriKey®

## for Commercial Premises

SentriKey® is an Internationally accepted key-based solution for the management of multi-people site access.

### Product overview

**The SentriKey key management system is a secure and trusted property access solution with keys stored at the point of entry and all access managed through a cloud-based platform.**

The SentriKey system comprises the most secure, commercially graded key lockbox, a platform for managing property access, and an app for key access. Alternatively, a temporary code can be generated on the platform for emergency access or contractor visits.

Incorporating a tried and tested patented technology and accredited levels of security, SentriKey provides confidence and peace of mind with remotely managed, real-time traceable access.

Because of its numerous benefits and features, the SentriKey access system is widely used in various sectors, including Security, Banking, Retail and Property Management.

### Why SentriKey®?

- ✓ **Flexible, efficient access** – Access is gained via secure mobile app or electronic code
- ✓ **Record multiple site visits** – Track individuals time and attendance on site
- ✓ **Situation updates** – Update site information, including photos, while on site
- ✓ **Keys never leave the property** – Eradicate missing keys and key holding charges
- ✓ **Approved user access** – Remove or add individuals and organisations with ease
- ✓ **Most secure lockbox in the world** – Only commercial graded, Police preferred specification lockbox available in UK
- ✓ **Employee safety** – Push button silent alarm system to protect lone workers/visitors
- ✓ **Asset management** – Review your property portfolio and activity in real time

Used on thousands of businesses across the UK, Spain and the USA, the UK's most secure access solution provides instantly traceable building entry and exit for multiple locations.
